**Origin of the surname COSSAR** according to George F. Black, "The Surnames of Scotland. Their Origin, Meaning and History."

"Probably assimilated forms of CORSAR, q.v. Robert I granted charters to Henry Cosur or Henry dictus Cosure of the lands of Bondyngtone and Bethocrulle .... " CORSAR is "From the occupation, [Middle English] *corser, corsere, or courser*, 'a horse dealer.' "

Use the family groupings with caution. I've made some rather arbitrary judgments in placing, what appear to me to be, family members together. Most assuredly some of those judgments are wrong. **Be cautious about entries in an orange font; the ones to be most cautious about are the ones in red!** This file is only intended to provide clues as to family members. Always consult original documents such as the OPR, before drawing conclusions.

Since the entries for a given family may have multiple variations of the spelling of the surname, not all entries are strictly alphabetical
